January 2021: Brother Joe and Brother Jerry are talking to Pastor John about coming to visit South Africa in January 2021.

Intense teaching: The intense teaching coming to me is bringing correction and direction. It's helping me and bringing freedom. Sometimes, freedom needs a little bit of roughing up. When a child gets a hiding, they feel free afterwards, they know where the boundaries are. Father God works with me like that, get sorted, get sorted, are you sorted? Ok, now we can move on.

The Holy Bible a contract: These words that are written in this Bible, are the words that come from the presence of God, they are more valuable, more precious, have more energy, have more future in them than any housing contract that you've signed (to buy or to rent), more than anything that anybody else, or any other written contract has in your world. Like when you have bought a car, you are paying it off every month and you skip a payment, someone you've never spoken to before is going to phone you. Even though you may be enjoying the car you don't really know what the consequences of that contract is until you skip a payment. They're going to say, "Hey, you owe money on this contract." If you don't make that payment, and you skip another payment then the telephone calls get more and more serious. By the third, or the fourth payment, you're having talks about maybe not driving that car for much longer.

My energy: The power of words that were written, that you signed, as an agreement, it actually said, "these words represent the future of my energy". I commit a certain amount of energy to provide money to match the contract. But if you can't make a payment on the car, these words work against you. At some point in time, you entered into a contract whether you bought the car cash, made payments for the car, bought a house cash or made payments on a house or whether you're renting. You've driven here because of a contract that was put in place. You believe those contracts have got power? They do. They've got teeth. You'll see that if you just stop paying. Do you think that this contract (The Bible) that God has with us has any less power? This is a contract that God has with us, it's written Old Testament and New Testament. It's a contract that God has with Himself for which we are the beneficiaries (receivers). The reality is that this contract has much more power. When you buy a car, You might say, "this is my car". It's not actually your car. You've just signed a contract, which allows you to drive this car until you finish paying it off. It's not your car. You think you own this car? It's not your car, this car belongs to the place that you are borrowing the money from. They own the car. If you don't make the payments, someone shows up at your house and says, "can I have the keys of my car please?" That person gets the mandate by the court to come and collect the car. And so now they have all of the forces of the court, and the authority of the governing body of the nation behind them to come and collect the car that you think is yours.

A lot more teeth: These words that God has given me have a lot more teeth, and a lot more power than any contract that exists on this earth. Why? Because God made a contract with Himself. Between Him and Jesus, He made a contract in the death and the resurrection of Jesus. That if I believe in the words of this contract, then I can have everything that this contract says I can have. This contract says you can have a new car, which Jesus has paid for. All you have to do is believe in the words that He says, and you can collect your car. Well, no Pastor John it doesn't work like that. Well, if that's what you say, then it won't work like that. What I've just said, it is 100% truth. I'm telling you now, Jesus says you can have a car, which He has paid for. You don't have to actually go and rent one from a financial institution until it's paid off. You can have a car and it's paid for. I'm challenging the Babylon system that is in your thinking right now. In your thinking, your Babylonian mindset says this is not possible that God is taking care of a motorcar for me in the Bible. Debt free. So is it possible or isn't it ?

What does it take?: What does it take to get a car from God without paying for it? First, You have got to believe this contract. If you don't believe this contract, then you can never have

what this contract is delivered to you. This contract has much more power to deliver. **Matthew 6. How much more will the Heavenly Father not take care of you? "But seek ye first" verse 33. "And All of these things",** what things? The things you need to eat, to wear, to drink, the shelter? **"Given to you besides".** That's just the beginning of what's in the contract. When you get all these things that are supposed to be just given to you by the contract, your eyes will be open to see what else is available to you. Does that contract become null and void with COVID-19? The enemy of God will try and use it to bring you into that space of thinking, but this contract - the Old Covenant and the New Covenant is more powerful than any situation and circumstance that you find yourself in. The problem is that we have become so connected to the way that the Babylonian system works around us in the world, the reality of it and the availability of everything that we have need of in the system, that we don't go to God with His contract. He's the second choice. **My mindset is changing and continues to change. God has a better way for me. The more I give attention to His contract, and accept that His contract is real for my life, that's when I get to start receiving what His contract has for me.**

Captive: Can you see that just by me talking about a contract, that the enemy of God has been after taking God's children captive. And he's been hard at work to take us captive into a system so that we don't have the freedom to follow God's system. So, if he's captured your mind, your emotions and your thoughts about your future, then he's captured your potential to live as a child of God. When God says, "I will take the children," the enemy of God says, "I want you to sacrifice yourself and your children to me." It happens by signing a contract to buy cars, to buy a house, it starts by signing a contract to do things the way everybody else in the world does things on a daily basis, because that's the way things get done.

Proverbs 3: Proverbs 3:5-7, This is how plain as you can make it. Either you are going to rely on your own insight and your own understanding or you are going to rely on God's. Any confusion that we experience in life does not come from God, it comes from the pull that happens between the world system of what we want, what the world wants us to say that's the right thing to do. If you're wise in your own eyes, then you're not going to acknowledge Him in all your ways, lean on Him and trust in Him. **Verse 7** - What's the evil? It is being wise in your own eyes, turn away from that evil. This is completely opposite to what the world system will teach you. The world system says, "You should get more knowledge, more education, be well trained, more everything, you should... It's what you know, it's all this kind of stuff." Be wise, and the wiser you get the better things go for you. They're all wise in their own eyes, don't you think? Don't you think everybody in the world system thinks that that system is the way to go?

President Cyril Ramaphosa: I do believe that our current President Cyril Ramaphosa is a man of God, I know he is, I know he's a believer. I know, he's a man of God. And our prayers for him is that he will be unrestrained by politics and by corruption and he can follow the will of God and he can put South Africa on the path that needs to be because it affects all of us.

Terms of the contract: Proverbs 3:8-10 AMPC. God is actually giving you the terms of the contract, exactly. How powerful is this contract (The Bible) compared to the others contract that you have? Which contract has more power in your life? It is a fact that this has more power (The Bible). Whether it has more power for you depends on where your faith is and where you put your trust. **I honour the Lord with ALL of the income that comes into my life, I honour God with that from righteous labour.** In other words, there is no point in trying to give to God from somebody you crooked. **Like Pastor John, my faith is out there with Brother Jerry and I take his word seriously, that it doesn't matter what happens with Covid, supernatural increase is happening to me. It's because I believe this word, that this word happens for me.** **Terms of contract. Honour Me (God). When I honour God, then my storage places will be filled with plenty. That means new harvests all the time. It's seasonally new. It's contract time. What's God's contract with me? He will give me such fullness in my life, such abundance, such overflowing that I will not be able to have enough storage places that it will just keep overflowing.** So when my finances overflow like that, can I go and buy my car cash? Yes, now

my contract is no longer about Babylon system where I go to sign and pay for five years and pay double for the car.

Contract coming out of my mouth – confession: **Proverbs 1:33 AMPC.** When the devil comes to accuse me and says I can't do what the contract says I can, I know that God is being very practical about His contract with me. He says My contract has more teeth than any other contract that I have signed because He has declared that if I do this, then He will do that. I can quote the contract to God every day, every hour of the day, every minute of the day: I can say, I'm a tither, I give to You, I honour You, Lord with my substance and my increase. And because my honour is in my heart for You, and my mind, my money flows out of my honour, I command that You fulfil the side of Your contract, through the blood of Jesus, I command that money to come in, and my vats to be full, and my storage places to be full. I command it to be so.

Transition (change-over): I have understood that sometimes there's a transition (change over) between where your faith is now and where you want your faith to be. If you're in a place where your faith is, "I'm living in the Babylonian contract, but I really want to live in God's contract". Then I say again, this is not a time to allow yourself and the enemy to lie to you, to blame you and for you to allow self-criticism and self-judgement. What you need to do is to say okay, this is the way my circumstances are now. I'm going to take this contract and put it in my heart and put it in my mouth so that it dominates my future. You can start off by saying, if I've got a four-year contract to pay off a car, let me take God's contract and pay it off in two.

Time for parents to be honest: So what's this got to do with I will take the children? Well, here's the thing, if we have this kind of conversation in our house with our children, where we are honest with our children, that we'd be living in a Babylon system, that we need to be living in a God system. We are at least freeing them to live God's way, rather than to continue the way that we've lived. It's time for us to be able to speak to our children and say, we are partly being captured by Babylon. What we want you to do and what we need to learn to do together is to say we want to live in God's system. And let's explore what that looks like in God.

Persistent one: If you're persistent (determined, steadfast) about what you want, from your contract, you will get it. **Matthew 7:7-8 TPT.** It takes being persistent, everybody's going to tell you it's too late, the door you're knocking on is locked, it's closed, you can't do this, you can't do that. That's exactly how the enemy of God has taken God's children captive. Maybe you feel like, "I don't have to give my money to God, my life is all well". Oh, you who are wise in your own eyes? That's exactly what the enemy has planned, he can capture you because you don't understand this contract. Are you perfect parents? The Bible says you are imperfect. **Matthew 7:9-11 TPT.** If you think you got good stuff for your kids, how much more does God have good stuff in mind for your kids. It's in the contract. It's right here in the contract. **There is no better person my parents could give me to, other than the Owner of this contract (God).**

Pastor John: "So I can speak along with the prophet of this house. When I say these words, on behalf of God, I will take the children. God is after the children of this house. He's after your future. Because he's got a much better future for you than that Babylonian system". "But the thing is, if you give God the first fruit, then the all fruit is blessed. If you don't give God the first fruit, then it means the trust is firmly in you in what you do. And you trust "you" much more than you trust God - and by implication, your part in Babylonian system. And so I prayerfully, affectionately, lovingly try to deliver this message to you today. Because my affection for all of you is great. My love for you is huge".

Blood-bought family: This world system says the blood-borne (natural) family has the highest status but Jesus says the blood-bought (God) family is eternal. When you became blood-bought, you got bought into a family and you do not have the right to choose what you want to choose for you. The rest of the church has got a say in what you do. The blood-bought church / family, it's got power, it has a contract, it's got so much authority, so much power, so much energy, that it's got everything it takes to change our worlds, and then change the world. And how do you change the world? The same way you eat an elephant? One bite at a time.
